

# Bathtub Waste

US-CW13 without overflow  
US-CW15 with overflow

## Installation Instructions

### Introduction

The bath waste and overflow has been fully inspected throughout the production process and only leaves our factory after a 15-step QC process. Carefully remove the waste and overflow from the box and check that all parts have been supplied. Before beginning installation please check for any damage that may have occurred during transport.

**Note: Damage claims cannot be made during or after installation.**

Improper installation shall result in loss of warranty in case of damage caused by impacts or rubbing against rough surfaces.

**IMPORTANT: Please read these instructions carefully before beginning and retain for future reference.**

**We do not accept responsibility for any problems that may occur through incorrect installation.**

### 1 Installation

- Install the tub clicker waste and washer from the top side of the tub drain.
- Secure using the washer and nut from the underside.
- Please make sure you have the appropriate waste pipe to connect to.

### Parts identification

### Cleaning Instructions

Rinse away any traces of soap and gently dry with a clean, soft cloth after each use. Rinse completely with water and dry any overspray. This will maintain the finish and avoid water spotting.

To remove mineral deposits, use a 50/50 solution of white vinegar and water. Do not allow the solution to soak on the product.

Simichrome Polish® contains a protective film to enhance maintenance and is helpful in preventing water spot buildup. Follow instructions to ensure optimum results.

Never use an abrasive material such as a brush or scouring pad to clean the surface. The use of abrasive cleaners, cleansers or disinfectants will alter the surface finish and void the warranty.

Do not allow certain materials such as toothpaste, cologne, shaving cream, nail polish remover, vinegar, wine, drain and glass cleaners to remain on the surface. Prolonged contact will alter surface finishes and void the warranty.

**We DO NOT recommend using any household cleaners as many can cause damage to the finish.**

Please see the website for care instructions for specific finishes.

### Tools required

Channel locks

Plumbers' putty or caulking

Adjustable wrench

Flat head screwdriver

Cross head screwdriver

Hexagonal key

**Warranty** - This Crosswater London product is covered by a limited lifetime mechanical warranty. For full details, terms and conditions please visit our website.
