

# Belgravia Frame Mirror US-A11 Installation Instructions

## Tools required:

## Parts supplied:

### IMPORTANT:

Please check this product immediately to ensure that it is complete and check for damage that may have occurred during transport.  
Note: Damage claims cannot be made during or after installation.  
Please read these instructions carefully and keep for future reference

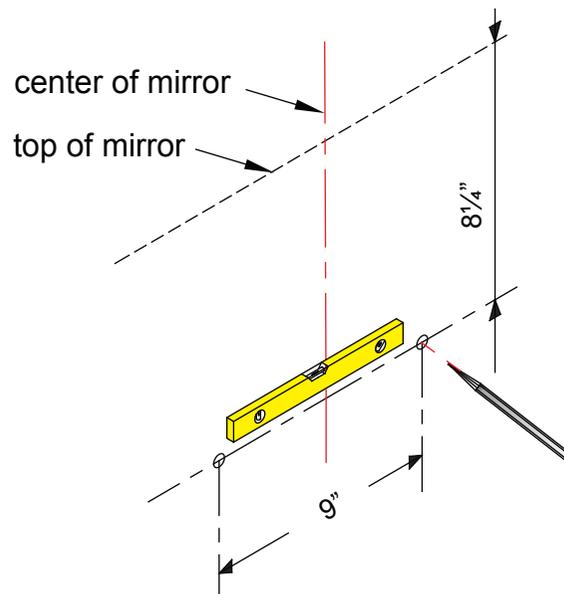

## Cleaning Instructions

The safest cleaner for a mirror is a soft, clean cloth and warm water. If using a glass or mirror cleaner, be sure it does not contain ammonia or vinegar.

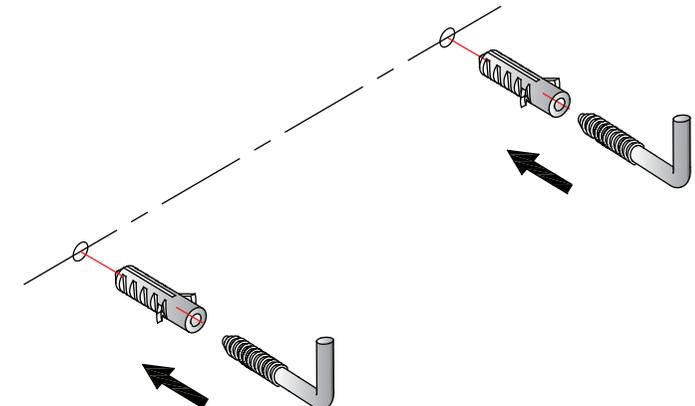

Never spray any cleaner directly on to a mirror. Spray the cleaner on to a soft cloth and then wipe the mirror.

The mirror edges are treated with a specially formulated sealant designed to protect the mirror edges from contaminants and discoloring. Care should always be taken to avoid getting the edges and backing of the mirror wet. Should they get wet, dry immediately.

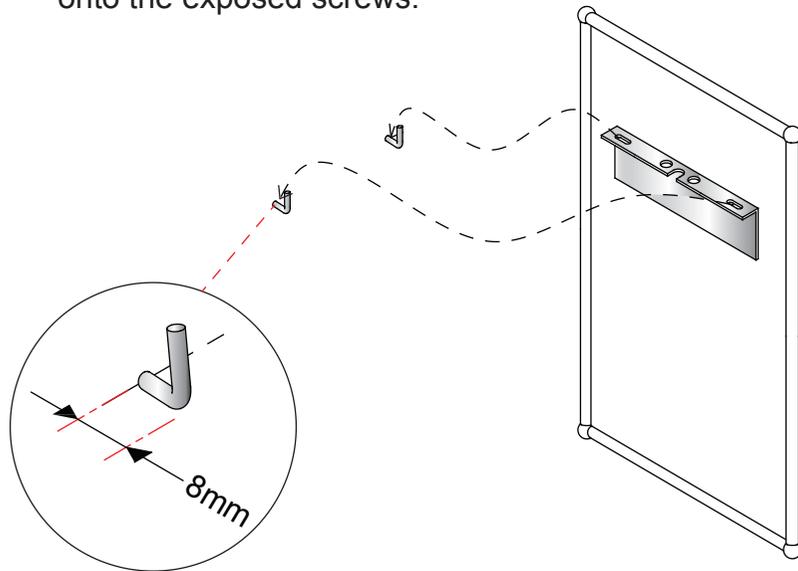

- ① Determine the final installation position, mark the fixing hole positions in pencil.

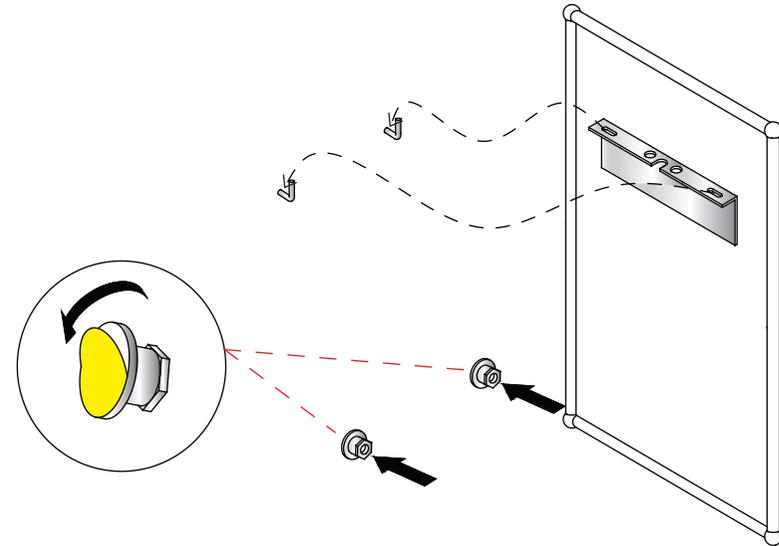

- ② Using an 8mm drill bit, drill holes on the marked positions. Note: In the event that the wall fixings supplied are inappropriate for the wall, please source alternatives.

- ③ Keep the stainless screw exposed 8mm outside the wall.  
Mount the mirror onto the wall by hanging the bracket of mirror onto the exposed screws.

- ④ Check if it is stable.  
If not, please re-adjust the exposed length of screws and use the washers supplied if needed.

⑤
